## THE BENEFITS OF THE COMMERCIAL PRESCRIPTION DRUG GUIDE

The Commercial Prescription Drug Guide is a list of medications which may be covered under your prescription drug plan.\* This list was reviewed by an independent group of practicing doctors and pharmacists, and it contains medications made by most pharmaceutical manufacturers. It includes medications for many covered conditions.

**\*Please Note: Not all the medications in this guide are covered by all pharmacy benefit programs. The Commercial Member Guide only lists the most frequently prescribed medication and is subject to change. For the most up-to-date information on coverage and cost of a medication you can call the PHPMM Customer Service Department at 1 800 832-9186 or go to [www.medco.com](http://www.medco.com). You will need to register if you are a first time user of the Medco website.**

Your plan may prefer some medications over others. These are called *plan-preferred drugs*, and their co-payment may be lower. The amount of your co-payment depends on which drug your doctor prescribes for you.

### Tier 1

Tier 1 represents your lowest copayment option.

### Tier 2

Tier 2 is your middle copayment option.

### Tier 3

Tier 3/Non-Preferred products are your highest copayment option. Coverage for Tier 3/Non-Preferred products is determined by the prescription drug benefit plan.

Note: If the member has a “closed” pharmacy benefit (two-tier pharmacy plan) then medications on the non-preferred list are generally not covered except under certain processes consistent with applicable law.

Note: Medications listed in parentheses ( ) only indicate the trade name/generic name of the medications. Coverage is determined by the consumer’s prescription drug benefit plan

## SAFETY CONSIDERATION SYMBOLS

Here is a quick guide for you and your doctor, which explains our safety symbols. These symbols appear next to certain medications.

- N** Notification required.
- ql** Quantity limit.
- qd** Quantity per duration limit.
-  Means weigh risk of birth defects or other adverse outcomes.
-  Means do not use in pregnancy.
- A** Prior notification may be required to be eligible for coverage depending on patient age. Contact PHP Customer Service to determine request procedure.
